

Good afternoon.

Below is the statement from Montana Housing's PR Department announcing our new brand name.

In hopes of avoiding any confusion, please be aware that all legal documents will remain in the name of Montana Board of Housing. Our processes still take place through the legal name of Montana Board of Housing. Letterhead, signature lines, etc. will display our new logo and the name Montana Housing.

Please let me know if you have any questions and thanks so much for your continued support of our programs and service to the citizens of Montana!

### We are MONTANA HOUSING

Dear Affordable Housing Partners,

**MONTANA HOUSING** is the new public-facing brand incorporating all programs of the Montana Board of Housing, Section 8 and Housing Division at the Montana Department of Commerce. By using one concise name, more Montanans will become familiar with the important services we provide and make those services more accessible.

Our name has changed, but our mission has not. **MONTANA HOUSING** helps build affordable and vibrant communities by partnering with organizations to develop affordable housing opportunities for hard-working Montanans across the state. We do this in partnership with you through home-buying assistance, rental assistance, and private-public partnerships to develop more affordable homes.

While **MONTANA HOUSING** will become our public-facing brand for public relations and marketing purposes, the names used within the division for legal documents will remain the same.

Thank you for the work you do to ensure more Montanans can access affordable housing.

Bruce Brensda
