

# Housing and Population Demographics

The following information has been prepared by Montana Board of Housing and Census and Economic Information Center staff for use by the MBOH Commissioners and the developers of affordable housing in Montana.

The data on the next few pages is represented as COUNTY totals or averages, as well as for the REGION that they are a part of. The Housing Tax Credits are also shown as a total for each CITY they were used in.

The regions used for QAP Housing and Demographic data are the regions that are known in Montana as Human Resource Development Councils (HRDCs). These regions were first created in 1964 to organize the statewide efforts to help individuals and families out of poverty and should be easily recognized by most affordable housing advocates. Montana’s HRDCs operate a wide variety of different programs such as home energy assistance and weatherization, emergency food and shelter, workforce training, affordable housing, child care and child feeding, Head Start and a variety of other family self-sufficiency programs.
