APPLICATION GUIDELINES FOR THE
HOME INVESTMENT PARTNERSHIPS PROGRAM HOMEBUYER ASSISTANCE PROGRAM

I. Introduction

With its annual funding allocation from the U.S. Department of Housing and Urban Development’s (HUD) HOME Investment Partnerships Program (HOME), the State of Montana (State) Department of Commerce (Commerce), Community Development Division (CDD), supports the rehabilitation, new construction, and acquisition of affordable rental housing as well as the new construction of single-family housing for homeownership and down payment assistance for homebuyers. CDD’s efforts serve households with low, very low, and extremely low incomes\(^1\), particularly the homeless, disabled, elderly, and other disadvantaged populations. HOME was created under Title II of the Cranston-Gonzalez National Affordable Housing Act of 1990 with implementing regulations at 24 CFR Part 92.

The HOME Program is intended to maintain and expand the supply of decent, safe, sanitary, and affordable housing. The HOME Program requires income targeting and can serve households at or below 80% area median income (AMI). While HOME-assisted rental properties further target very low-income households at or below 50% AMI and households at or below 60% AMI, homebuyer programs do not have that requirement.

A portion of Commerce’s HOME funds will be used as gap financing to support homebuyer assistance programs in Montana. HOME funds may be used to provide down payment and closing costs assistance for Montanans to purchase housing that must be affordable to households at or below 80% AMI. In exchange for funds, grantees agree to terms and conditions set forth by Federal and State authorities. Upon investment of HOME funds, grantees agree to comply with recapture or resale provisions, occupancy requirements and periodic reporting to CDD to ensure compliance during the applicable period of affordability (POA).

Commerce will outline in its Annual Action Plan the allocation of HOME funds for homebuyer assistance programs. HOME funds for homebuyer assistance are to be used in conjunction with other mortgage financing that meets HUD requirements to ensure homebuyers are prepared for sustainable homeownership without being over-subsidized.

This document presents the requirements for homebuyer assistance programs financed with HOME funds. For information on using HOME, Housing Trust Fund (HTF) or Community Development Block Grant (CDBG) funds for other types of housing programs, please contact CDD staff.

HUD distributes HOME funds to Commerce, which awards grants to eligible grantees in accordance with the Montana Consolidated Plan and most recent version of Commerce’s Annual Action Plan. These guidelines establish the process for obtaining HOME funds and are available at https://comdev.mt.gov/Programs/HOME. The HOME application guidelines, grant administration manuals, and other relevant information and resources are available on the CDD website at https://comdev.mt.gov/Programs/HOME. Interested persons may also e-mail CDD staff at DOCCDD@mt.gov or call (406) 841-2770, Montana Relay Service at (406) 841-2702, or 711 with questions about the HOME Program.

\(^1\) HUD defines low-income households as those with incomes below 80% of the Area Median Income (AMI); very low-income as below 50% AMI; and extremely low-income as below 30% AMI.
CDD will review applications and make recommendations to the Commerce Director, who will make the final qualification determination. As previously outlined, Commerce’s allocation for homebuyer assistance programs is specified in its current Annual Action Plan. Commerce will commit portions of that allocation to qualified Grantees, which may access these funds by executing two-year contracts with Commerce. Grantees must expend any HOME program income prior to drawing additional HOME funds. If, at the end of the contract term, a Grantee has not used its full allocation, Commerce will redeploy those funds to other HOME-eligible activities. In the event homebuyer assistance funds are oversubscribed, preference will be provided to homebuyers in non-entitlement communities.

II. **Eligible Applicants**

Local governments and non-profit organizations (including CHDOs) are eligible applicants to undertake homebuyer assistance programs using HOME funds.

III. **Eligible Projects**

HOME funds may be used to provide down payment and closing cost assistance to first time homebuyers with household incomes below 80% AMI. Grantees managing a homebuyer assistance (HBA) program must ensure the assistance is provided to income-eligible households to purchase modest housing following conservative underwriting and responsible lending standards. HUD’s published income limits and home purchase price limits are available at the following links:

https://www.hudexchange.info/programs/home/home-income-limits/
https://www.hudexchange.info/resource/2312/home-maximum-purchase-price-after-rehab-value/

Grantees indicate in their Commerce-approved Management Plan the maximum HOME assistance available for a single household for homebuyer’s assistance. Not all buyers will qualify for the maximum assistance.

**Ineligible Project Activities**

HOME HBA funds cannot be used to finance the purchase of substandard homes, whether stick-built or manufactured. HOME funds may not be used in conjunction with predatory first mortgages, or for homes in need of repair. Homes that do not meet Uniform Physical Condition Standards (UPCS) may not be financed with HOME funds.

IV. **Other Considerations**

**Period of Affordability**

During the applicable period of affordability (POA), the grantee will need to provide certification that the homebuyer continues to occupy their home as their primary residence. If ownership changes within the POA, the grantee will need to enforce its recapture or resale provisions according to their Commerce-approved Management Plan and report the results to Commerce on a quarterly basis.
The length of the POA depends on the amount of funds invested with the homebuyer as follows:

<table>
<thead>
<tr>
<th>Length</th>
<th>HOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 Years</td>
<td>Homebuyer Assistance &lt;$15,000 Per Home</td>
</tr>
<tr>
<td>10 Years</td>
<td>Homebuyer Assistance $15,000-$40,000 Per Home</td>
</tr>
<tr>
<td>15 Years</td>
<td>Homebuyer Assistance &gt;$40,000 Per Home</td>
</tr>
</tbody>
</table>

**Underwriting**
Assisted homebuyers should have good credit and qualify for competitive, high-quality lending products on par with those offered to unassisted buyers in the local market. Buyers who can only qualify for subprime loans are not only less likely to sustain homeownership but also require larger subsidies, reducing the impact of Commerce’s HOME Program.

Assisted buyers should also make reasonable and meaningful contributions to their home purchase in terms of both up-front investments and monthly payment without being overburdened by their monthly payment or left without cash reserves after closing. HOME assistance should not be used to artificially reduce buyers’ payments, particularly when limitations to a buyer’s ability to qualify for a loan are the result of excessive consumer debt.

Assisted homebuyers should be able to obtain a loan whose monthly payment (i.e. front end ratio) and total debt burden (i.e. back end ratio) comply with the Grantee’s Management Plan. Generally accepted ratios fall within 28% and 33% for housing ratio and up to 42% for total debt ratio. More specifically, homebuyers are expected to spend at least 28% of their monthly gross income on their housing, defined as principal, interest, taxes and insurance (PITI).

To help prevent future foreclosures and to protect CDD’s financial investment in assisted homes, subordination of HOME-funded liens to future refinancing by assisted buyers will be outlined in the grantee’s Commerce-approved Management Plan and will only be considered under limited circumstances. Grantees may implement more stringent policies and must stipulate them in their Management Plan for CDD approval.

**Match**
A 5% match is required for the use of HOME funds. Match must come in the form of a permanent contribution to affordable housing. For HBA programs, the following are typical examples of eligible sources of matching funds:

- Proceeds from bond financing (e.g., Montana Board of Housing loans);
- The cost of homebuyer counseling to families purchasing HOME-assisted units;
- Cash from sources other than the homebuyer (e.g., Home$tart grants);
- Value of foregone interest, taxes, fees, or charges levied by public or private entities;
- Present value of interest savings from below market rate loans.

Investments from state and local governments or the private sector likely qualify as match, whereas federal funds do not. Owner equity does not qualify as match.

**Manufactured Housing**
If HOME funds assist manufactured housing, the home must be secured by a foundation system capable
of transferring all design loads to the ground and which meets the requirements of 24 CFR Part 3280. In addition, all units must have an affixed certification label that certifies conformance with the Federal Manufactured Home and Safety Standards.

HOME HBA cannot be used to purchase substandard manufactured housing. If the replacement of substandard manufactured housing is a need in the communities you serve, please contact CDD about the availability of CDBG Housing Stabilization Program (HSP) funds.

Housing Counselling
In order to be assisted with HBA funds, each prospective homebuyer must complete a HUD-certified housing counseling course within the past year. Documentation certifying the completion of the course is required prior to investment of HOME funds.

Environmental Requirements
Projects financed with HOME funds must meet the environmental requirements and adhere to the environmental review process specified at 24 CFR Parts 50 and 58.

Part 58 specifically states that down payment and closing cost assistance is considered a categorically excluded activity, not subject to 24 CFR 58.5. However, certain site-specific regulations apply to all HOME activities, and such environmental review must be completed for each property assisted. As a result, an environmental certifying officer will need to be designated during the startup process, who will be responsible for ensuring that assisted properties are compliant with environmental provisions pertaining to floodplain management and airport hazards.

Lead-Based Paint
HOME units must meet HUD standards for lead-based paint (LBP) mitigation. For units built before 1978, grantees must provide proper notice to homebuyers, which includes distributing the Protect Your Family from Lead in Your Home brochure. Homebuyers must sign the Disclosure of Information on Lead Based Paint form to acknowledge receipt of information pertaining to LBP.

Uniform Relocation Act (URA): Voluntary Acquisition/Right to Withdraw
In order to comply with HOME URA requirements, prior to the acquisition of a property with HOME funds, the seller must be informed that a HOME-assisted purchase is voluntary in nature without any threat of eminent domain, and that the seller is entitled to a fair-market valuation. Ideally, a Voluntary Acquisition notice will be provided to the seller prior to the signing of a buy-sell; however, a right to withdraw must be provided to and signed by the seller prior to closing if the buyer did not receive the Voluntary Acquisition prior to the buy-sell.

In addition, the property to be acquired with HOME HBA funds cannot have been rented within the six months prior to sale.

Conflict of Interest
No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. Grantees with a potential or actual conflict of interest must disclose that to Commerce to coordinate efforts to inform the public and to ensure proper steps are taken to address the conflict.
Public Participation Process
To receive HOME funds, applicants for grants must carry out citizen participation in a manner that complies with the current Montana Consolidated Plan. Commerce encourages applicants to engage with their stakeholders, e.g. community organizations, the public, housing partners, lenders, and current or potential homebuyers through informal meetings or planning sessions that make information available, inform the public of the proposed activity, and otherwise contribute to a meaningful citizen participation process. Applicants should retain documentation, including posters, agendas, sign in sheets, presentations materials and handouts, photos, and survey responses resulting from or generated for such meetings and sessions.

V. Administrative Procedures and Requirements

For HOME projects, the grantee will comply with the HOME Investment Partnerships Act at Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended, 42 U.S.C. 12701 et seq.; 24 CFR Part 92; 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; any applicable state and federal laws, regulations, administrative directives and procedures, as now in effect or as may be amended during the contract; all administrative directives and procedures that may be established or amended by Commerce for the HOME Program, including the most current version of Commerce’s HOME Application Guidelines and current HOME Grant Administration Manual; the Montana Consolidated Plan; and all other applicable local, state, and federal laws, regulations, administrative directives, procedures, ordinances, or resolutions.
